

The Coalition for Orchid Species, an American Orchid Society Affiliate, is a group of orchid enthusiasts dedicated to the enjoyment, cultivation and conservation of all species of orchids.

Where good friends meet for a good COS!

Our monthly meetings feature an invited speaker who discusses a species group or a topic related to the care, cultivation and conservation of species orchids;

This is followed by a Show-and-Tell session of blooming orchid species brought in by COS members, who discuss their orchid's natural habitat and successful culture in South Florida;

We also have a lively orchid raffle at each meeting, and a silent auction table where members can obtain high-quality species at a terrific price.

COS meets on the third Monday of the month at 7:30 PM in the Corbin Bldg. at Fairchild Tropical Botanic Garden, 10901 Old Cutler Road, Miami, FL
